

GRADELLENCE

Smart School Result Management

PARTNERSHIP PROPOSAL

Presented to School Directors & Proprietors

What is Gradellence?

Gradellence is a modern, cloud-based School Result Management System designed specifically for Nigerian private schools. It replaces the slow, error-prone process of manually computing results from teachers' mark sheets - and puts everything your school needs to manage academic results in one simple, secure platform.

Whether your school currently uses handwritten mark sheets, Microsoft Excel, or older software that no longer meets your needs - Gradellence is built to be faster, more accurate, and easier for your staff to use from day one.

The Problem We Solve

We understand that result management in most private schools today involves:

- ✓ Teachers submitting handwritten or Excel score sheets at the end of term
- ✓ Administrative staff manually computing totals, averages, grades, and class positions - often staying late into the night
- ✓ Errors in scores, wrong grades, and misprinted report cards that frustrate parents
- ✓ No easy way for parents to check their children's performance without calling the school
- ✓ Result computation that takes days or even weeks when it should take minutes

These are not small problems. They cost your staff time, create avoidable errors, and affect your school's professional reputation with parents.

How Gradellence Solves This

Gradellence is built around one goal: making result management effortless for your school.

For School Administrators

- ✓ Set up your school's grading system, class structure, and subjects once - and it's done
- ✓ Results are computed automatically the moment teachers finish entering scores
- ✓ Publish results to parents and students with one click
- ✓ Download professional, branded report cards as PDF - in seconds, not days
- ✓ See your school's performance at a glance on a live analytics dashboard

For Teachers

- ✓ Enter scores directly on any phone, tablet, or computer - no more paper sheets
- ✓ The system automatically calculates CA totals, exam scores, final grades, and class positions
- ✓ No more manual marking of broadsheets late at night

For Parents

- ✓ Parents can check their child's published results anytime from their phone
- ✓ No more calls to the school asking "when will results be out?"
- ✓ SMS and WhatsApp notifications when results are published (Standard & Premium)

For Students

- ✓ Students can log in to view their own results and track their academic performance over time
- ✓ Term-by-term performance history all in one place

Key Features

Gradellence is built for the full academic cycle of a Nigerian private school:

- ✓ Customisable report cards that match your school's existing format - logo, colours, principal signature, school stamp
- ✓ Configurable assessment types - CA1, CA2, CA3, Exam - with custom weights and max scores per your school's policy
- ✓ Academic session and term management (1st, 2nd, 3rd term)
- ✓ Broadsheet generation for school-wide result review
- ✓ Bulk score import from Excel - teachers who prefer Excel can upload their sheets directly (Premium)
- ✓ Student bulk promotion at end of session (Standard & Premium)
- ✓ Full audit trail - see who entered which score and when
- ✓ Role-based access - admins, teachers, students, and parents each see only what is relevant to them
- ✓ AI-powered features - automatic remarks, student summaries, risk prediction (Premium)
- ✓ SMS & WhatsApp result notifications to parents (Premium)
- ✓ Multi-campus management - manage all branches from one account (Premium)
- ✓ Historical performance comparison across sessions (Premium)

★ EARLY ADOPTER INVITATION

Gradellence is currently in its pre-launch phase. We are inviting a select group of forward-thinking school directors to join us as Early Adopters - schools that will shape the future of this product and enjoy exclusive benefits that will never be available again.

As an Early Adopter, your school enjoys these exclusive benefits:

Benefit	What It Means for Your School
Grandfathered Pricing - Forever	The price you sign up at today is locked in permanently. Even as Gradellence grows and prices rise for new customers, you never pay more than your original plan rate.
20% Discount for 3 Months	Enjoy 20% off your chosen plan for the first 3 months after launch - automatically applied, no coupon needed.
Referral Reward	Every 5 schools you refer earns you one full month free. Unlimited referrals, unlimited free months.
Future Features at No Extra Cost	Every new feature, add-on, or module released after launch is included in your plan free - forever.
Free Custom Report Card Template	We replicate your school's existing report card format at no charge during onboarding. Your branding, your layout.
Free Onboarding & Data Migration	Our team sets up your account, imports your student data, classes, and subjects - fully ready for day one.
Priority Support	Dedicated response within 2 hours during business hours. Your queries always jump the queue.
Free School Spotlight	Your school is featured in our weekly Gradellence newsletter and blog - free advertising to our growing network.
Subscription Starts at Launch	You commit now but billing only starts when the product officially launches. Zero charges during pre-launch.

This Early Adopter campaign is limited. Once we reach our pre-launch capacity, this offer closes permanently. The Early Adopter programme remains open only until the available slots are filled. We officially launch at the end of September 2026.

Why Choose Gradellence Now?

- ✓ Built specifically for Nigerian private schools - not a foreign product adapted for Nigeria
- ✓ Your feedback during pre-launch directly shapes the product
- ✓ Lock in the lowest price you will ever pay for Gradellence - forever
- ✓ Be known as a school that leads - not one that follows
- ✓ Your school is fully set up and ready to go from the first day of next term

Data Security & Reliability

We understand that your students' academic records are sensitive and important. Gradellence is built with security as a priority:

- ✓ All data is encrypted and stored securely in the cloud
- ✓ Only authorised staff can access your school's data - no other school can ever see your records
- ✓ Automatic daily backups so your data is never lost
- ✓ Works on any device - phone, tablet, laptop - with any internet browser
- ✓ No software to install or maintain on your school's computers

Next Steps

Getting started is simple:

1. Choose your plan (Basic, Standard, or Premium)
2. Sign up as an Early Adopter
3. Your school is onboarded and set up during the pre-launch period
4. Go live at the start of the next term -fully ready
